Document Body

Hello Linda:

We would like to set up a conference call for Thursday May 5 to go over the congener analysis results and related conclusions; modified grading plan; and PCB characterization approach that Pechiney used for soils at the site. On May 5, we are not available from 1:30 to 2:30 PM; and could have a conference call between 10 AM and 1:00 PM. Please let me know if the date and time proposed for the call would work for you and your risk assessor.

In addition, our current plans are to issue an approval of the cleanup level by the end of May 2011.

Thank you for your courtesies and please let me know if you have any questions concerning this message.

Sincerely,
Carmen

Carmen D. Santos
PCB Coordinator
